# The Journey to the Top 40 Year 3 Entry through CollegeCare®

The transfer process can be overwhelming, even for U.S. students.

Our experienced advisors know what kind of help international students need to keep the process moving forward as painlessly and successfully as possible.

Follow UBridge student Li Zihan, "Mia", from the start of Year 2 to her target university.

"Chose UVA as my target university, created my educational plan, and got the courses and grades I needed in my first year – with the help of my UBridge advisor!"

"Had a one-on-one meeting with my advisor to discuss goals and go over all the details of the transfer process."

"It's a good thing I mapped out my two-year educational plan with my advisor so I didn't miss any required courses in the first year."

"My advisor and I brainstormed ideas for my application essays – I'm grateful they know what my target school is looking for."

"Hard at work on my essay. We are already on draft three and it's gone to multiple UBridge staff for editing and proofreading."

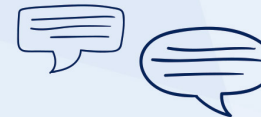

"The actual online application form is pretty overwhelming – I'm glad a UBridge advisor helped me go through it click-by-click to make sure everything is correct."

"I'm getting all kinds of reminders from UBridge staff to make sure I don't forget a thing in my application. There's so much to do and send – without their help, I'm not sure how I'd do it."

"Acceptance emails are starting to come in and my advisor is helping me sort through financial questions and make the final decision."

We did it! I'm at my dream university and staying in touch with the UBridge team to let them know how I'm doing. So glad I had the support I needed to get in.
